

V T i ® C E L T I C M O T O R S

VTi® CELTIC RF | DC RECHARGEABLE BATTERY MOTOR

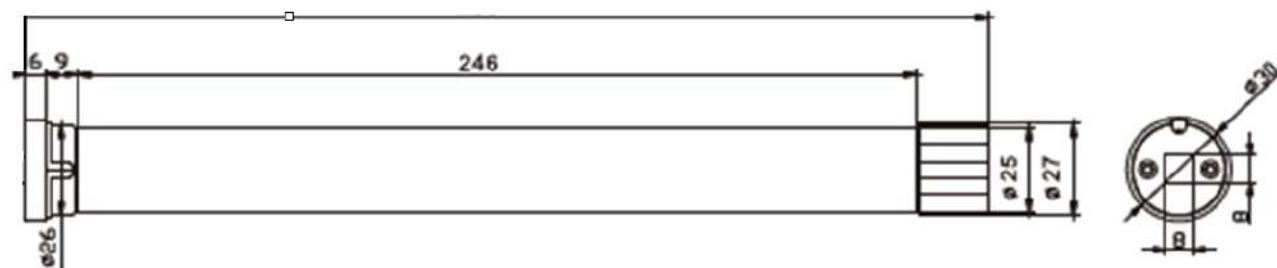

SERIES Ø25/1.8Nm

6-700-CM-25E10

Features

- Multiple limit settings (4 optional intermediate limits)
- Internal rechargeable lithium battery
- Recommended for shades with dimensions up to 120" x 96". The excess of its load capacity can cause the loss of its upper/down limits
- Easy replacement of manual system VTX 20 with 1 3/4" or 45 mm tube
- Is a perfect retrofit for existing home or small commercial projects.
- Do not require electrical wiring, no external battery pack and no complicated installation
- Up to 250 up and down cycles per charge.

Dimensions

Wiring Specs.

Female low voltaje power connector 5.5 mm
Cable type: #24AWG
Length: 4 in

Motor includes:
45 mm crown and drive.
